FOREWORD

The new edition of Data on Police Organizations as on 1.1.2017 is the result a combined effort of Bureau of Police Research and Development and all Police Organizations in the country. BPRD has been publishing it since 1996. Over the period of time new data sets have been added and latest trends, ideas, analysis and new information have been incorporated in the publication.

The present edition is unique in its own way as data has been obtained online by a specially designed software of National Informatics Centre. Idea was to cut-down the time taken and also to prevent errors in computation. Despite testing troubles and initial glitches in the software, the data received online has been successfully compiled. This process has reduced the publishing time by around 4 months. It is hoped that in subsequent years the publication time will reduce further.

Some new data sets have been added in this edition such as a table on Cyber Laws and Social Media Monitoring Cells in States and UTs. The second version of the online software system for data acquisition is also under development and very soon it will be launched for next edition of Data on Police Organization. BPRD is planning to thoroughly review the content and presentation of this publication so that it can serve more meaningfully the requirements of various police organizations, research scholars etc. Sh N. B. Wasonkar, DG BPRD is guiding us in this regard.

This edition of "Data on Police Organization" in India has been possible only due to cooperation from various Police organizations and the Ministry of Home Affairs, I thank them. As there is always scope for improvement, we welcome constructive feedback.

I hope police administrators, planners, policy makers, academicians and other stakeholders will use this Digital publication of BPRD for strengthening law enforcement in the country and improving service delivery to the citizens.

This chapter presents collated data on basic police issues in the country, which may not be found through common published sources. The information in this chapter is as on **01.01.2017** along with the analysis thereof for a period of **eleven years** from **2006** to **2016** (alternate years). The data covers all the States and the Union Territories of the country.

Police+Population Ratio

There are **19,89,295** number of Civil Police personnel and **4,75,189** Armed Police personnel as on **01.01.2017**. It shows that the total sanctioned strength of Police (Civil + Armed) in our country has shown an increase of **50.95%**, whereas the growth in population was **13.68%** during the last eleven years. This means that **688** people were being looked after by **one police person** in the year **2006**, which has

decreased to **518 people** being looked after by **one police person** in the year **2016**.

The basic police data is the compilation of information on sanctioned strength of Civil & Armed Police, Population per Policeman i.e. Police - Population Ratio, Area per Policeman, Number of Police Zones, Ranges, Districts, Circles, Police Stations, Police Posts and Number of Armed Police Battalions in the country.

An analysis of national data on police for the period of **last eleven years** for alternate years is given in **Table -1.0**. It also gives percentage change with reference to the preceding year (over 2 block years) and also with reference to period of eleven years from 2006 to 2016.

The actual availability of policemen gets further reduced owing to vacancies running upto **21.8%** as on **1.1.2017**. During this eleven years block period, the strength of State Armed Police Forces has shown an increase of **12.62%** from **4.21 lakhs** in the year **2006** to **4.75 lakhs** in the year **2016**. Details of **Population per Policeman** for the **Sanctioned** as well as the **Actual Police Strength** are shown in the **Table – 1.3**.

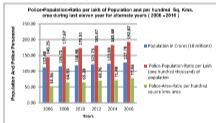

Police presence has increased from 51.56 policemen per 100 Sq. Km. in 2006 to 77.83 Policemen in 2016.

The **Police - Area Ratio** (number of policemen per 100 sq. kms.) has increased by **50.95%** during eleven years period of 2006 to 2016.

At national level, as on 01.01.2017, we have an average of **one Police Personnel** for every **1.28 sq. kms.** area. In the less populous states like **Arunachal Pradesh**, for the Sanctioned Strength this ratio was highest at **1:6.36 sq. kms.** followed by **Himachal Pradesh** with **1:3.29** sq. kms. and **1:3.28** in **Rajasthan**. On the other hand, in densely populated States/UTs it was lowest both in **Chandigarh & Delhi** at **1:0.02** sq. kms. Details of **Police-Area Ratio** for sanctioned and Actual Police Strength are given in Table – 1.3,

Graph for Table A

Mobility (Transport Facility)

Mobility is measured in terms of the ability of the police force of a unit to move at once. Police mobility is directly linked to police performance. Quick response in real time to law and order situations

helps to preserve the precious lives of people and to protect public and private property besides being a reliable indicator of police performance.

The vehicles needed to provide mobility to Police Force have been divided into four categories i.e. **Heavy Vehicles** (Buses, Trucks & Troop Carriers etc.), **Medium Vehicles**, **Light Vehicles** (Jeeps / Cars etc.), **Very Light Vehicles** (two/three wheelers). Apart from the above types of vehicles, States have also procured different types of **Special Purpose Vehicles** like mine proof vehicles, riot control vehicles, ambulances, mobile forensic vehicles, water tankers, prison vans etc. depending on vital police functions and their local area specific needs.

At national level, a total of **1,99,062 vehicles** were available with the States/UTs police forces as on **01.01.2017**. It comprised of **Heavy Duty Vehicles (12,762)**, **Medium Duty Vehicles (15,848)**, **Light Vehicles (76,195)**, **Three/Two Wheelers (86,757)** and others (7,536). The **national average** of the number of vehicles per 100 policemen was **8.08 vehicles** as on **01.01.2017**. At States/UTs level for sanctioned strength the **highest** number of **20.34 vehicles** per 100 policemen were in **D & N Haveli** followed by **15.14** by **Puducherry** and **15.10** by **Telangana**. This ratio was **lowest** at **3.32**

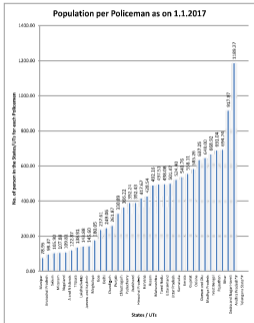

in Uttar Pradesh, 4.60 in Mizoram and 5.42 vehicles for Himachal Pradesh. Details of transport facilities per 100 Policemen for sanctioned as well as actual strength are given at Table – 1.3.

It can be observed that the major part of police vehicles (1,04,769) were Vehicles (Heavy Duty, Medium Duty & Light) which account for about 52.63% of the total holding of vehicles with Police. Vehicles (Heavy Duty, Medium Duty & Light) cater to the police mobility needs both of the Police Stations and supervisory officers.

- Sanctioned & Actual Strength of Central Armed Police Forces (CAPFs)

This chapter provides information on **sanctioned and actual strength** of Civil Police (including District Armed Reserve), State Armed Police and the total strength of Police. The **Police-Population** and **Police-Area Ratio** for sanctioned and actual strength of Civil Police and total police (civil police and State Armed Police) have also been given. Rank wise sanctioned and actual strength of Police Forces of States/UTs and CAPFs, have been provided. Officers to Constabulary Ratio (Teeth to Tail Ratio) have been computed for sanctioned and actual police strength of States/UTs and Police Commissionerates. Efforts have been taken to provide rank wise sanctioned and actual strength of Traffic Police, Special Branch, CID/Crime Branch and Special Task Forces.

Sanctioned strength

Data on the sanctioned strength of State Police Forces indicates that out of 24.64 lakh of the total police forces in the country, 19.89 lakh are civil Police and District Armed Police and the remaining 4.75 lakh are State Armed Police. The sanctioned strength is highest in Uttar Pradesh (4.13 lakh) followed by Maharashtra (2.40 lakh) and Tamil Nadu (1.36 lakh).

The sanctioned strength of the Civil Police is the highest in Uttar Pradesh (3.77 lakh), followed by Maharashtra (2.20 lakh) and Tamil Nadu (1.21 lakh).

The sanctioned strength of the State Armed Police is the highest in Uttar Pradesh (36,245) followed by Jammu and Kashmir (32,729) and Assam (30,848). State-wise details are given at Table – 3.1.

Actual Strength

Data on the actual strength of State Police Forces indicates that out of 19.26 lakh of the total police forces in the country, 15.46 lakh are civil Police and District Armed Police and the remaining 3.80 lakh are State Armed Police. The actual strength is highest in Maharashtra (2.25 lakh) followed by Uttar Pradesh (1.99 lakh) and Tamil Nadu (1.28 lakh).

The actual strength of the Civil Police is the highest in Maharashtra (2.09 lakh), followed by Uttar Pradesh (1.73 lakh) and Tamil Nadu (1.26 lakh).

The actual strength of the State Armed Police is the highest in Jammu and Kashmir (28,800) followed by Assam (27,596) and Uttar Pradesh (26,277). State-wise details are given at Table – 3.1.

Data on rank wise actual strength of Civil Police, Armed Police and the total Police force vis-à-vis their sanctioned strength indicates the following patterns at national level :-

Sl. No.	Items	Sanctioned	Actual
(i)	Civil Police per lakh of Population	155.68	120.97
(ii)	Total Police per lakh of Population	192.87	150.75
(iii)	Civil Police per 100 Sq. Kms. of Area	62.82	48.82
(iv)	Total Police per 100 Sq. kms. of Area	77.83	60.83

State-wise details are given at Table – 3.2

Total Police – Population Ratio

The Police – Population Ratio as per sanctioned police strength (total number of police personnel per one hundred thousand population of the state) has shown wide variations across the country. Sparsely populated states like Manipur (1252.5) and Arunachal Pradesh (598.5)

have the **highest** Police-Population Ratio as compared to national average of **192.87** police personnel per lakh (one hundred thousand) of population.

However, the more populous states have relatively lower Police population ratio viz. **Madra and Nagar Haveli (82.9)**, **Bihar (107.7)**, **Rajasthan (142.1)**. Details are given at **Table – 3.2**

Total Police – Area Ratio

An important criterion for effective and efficient police working is the number of policemen available per 100 sq. km. – popularly known as the **Police – Area Ratio**.

As expected **smaller States/UTs** have higher police-area ratio than the bigger States. Consequently, for sanctioned strength, the highest number of policemen available per 100 sq. km. was in **Chandigarh (5995.4)** followed by **Delhi (5692.3)** and **Lakshadweep (1756.3)**.

This ratio is the lowest in **Arunachal Pradesh (15.7)**, **Himachal Pradesh (30.4)** and **Rajasthan (30.5)**. Details are given at **Table – 3.2**.

Rank wise - Sanctioned Strength & Officers to Constabulary Ratio

It is popularly known as the **teeth to tail ratio**. It is an important indicator of the relative strength of policemen in different ranks. It also helps Police organizations in preparing management plan of the Police force. Generally, Officers in police organizations include Police Officers of

the rank of **Assistant Sub-Inspectors (ASI)** and above. Constabulary ranks include **Head Constable** and **Constable** only.

This **teeth to tail** ratio for sanctioned strength of total (Civil and Armed) police forces is **1:5.6**. While the ratio for Civil Police is **1:5** and for Armed Police it is **1:10.6**. Details are given at Table – 3.4 & 3.5

Items	ASI & above	H.C. & Constables	Ratio
Civil Police	3,30,742	16,58,553	1: 5
Armed Police	40,930	4,34,199	1:10.6
Total	3,71,712	20,92,752	1: 5.6

Vacancy Position in Police Force

There is **94,713** vacancies in the State Armed Police forces against **4,75,189** sanctioned strength and **4,43,524** vacancies in Civil Police against **19,89,295** sanctioned strength. In total there is **5,38,237** vacancies against total strength (Civil and Armed) of **24,64,484** at national level which comes to **21.8%**. Details are given in Table – 3.5 and 3.6.

Actual Strength of Traffic Police

There is **72,045** police personnel deployed on traffic duties. The highest **6,462** is in **West Bengal**, followed by **6,713** in **Rajasthan** and **6,026** in **Karnataka**. Table – 3.7(b).

Strength of Special Branch dealing with Intelligence

There is 32,660 Police personnel deployed against the sanctioned strength of 43,508. The highest 3,891 is in Punjab, followed by 2863 in Assam and 2,323 in Uttar Pradesh. Details are given in Table – 3.8

Strength of C.I.D. / Crime Branch

There is 13,953 Police personnel actually deployed in CID/Crime Branch against the 17,546 sanctioned strength. The highest number of Police personnel deployed is 1,925 in Haryana followed by 1,335 in West Bengal and 1312 in Delhi. Details are given at Table – 3.9.

There is 21,945 Police personnel actually deployed in Special Task Police force against sanctioned strength of 29,891. The highest 2,896 is in Jharkhand followed by 2512 in Karnataka and 1,963 in Jammu and Kashmir. Details are given at Table – 3.10.

Sanctioned Strength of Civil & Armed Police in Metro Cities

As per the available data there are 60 Police Commissionerates in different metro cities of the Country. These cities have a total of 3616 Police Stations. The rank wise sanctioned strength of Civil Police personnel in all these cities is 4,00,498 and the sanctioned strength of Armed Police is 48,808. The highest Civil Police strength of 75,207 is in Delhi followed by 63,463 in Mumbai city and 22,891 in Kolkata City. The highest strength 9,366 of Armed Police is in Kolkata, followed by 9,210 in Delhi and 5,691 in Bangalore City. Officers to constabulary ratio of Police (Civil and Armed) for all

these metro cities is 1:5.2 as against All India ratio of 1:5.6. Details are given in Table – 3.11, 3.12 & 3.13.

Strength of Central Armed Police Forces (CAPFs)

There is a total sanctioned strength of 11,54,39 in CAPFs, out of which, 30,218 are Gazetted and 11,34,112 are Non-Gazetted officials. However, the total actual strength is 9,87,497 out of which, 17,038 are gazetted and 9,70,459 are non-gazetted officials.

TRANSPORT FACILITIES

States/UTs Wise Data on :

- Heavy Duty Vehicles
- Medium Duty Vehicles
- Light Vehicles
- Three/Two Wheelers
- Number of Vehicles per 100 Policemen

Data has been compiled for different types of transport facilities (vehicles) available with States / UTs Police. Number of vehicles available per 100 policemen has also been given.

Transport facilities (Mobility)

Mobility is measured in terms of the ability of the entire strength of a Police unit to move immediately. Police mobility is directly linked to Police performance. Quick response of police forces during law and order situation helps significantly in protecting life and property.

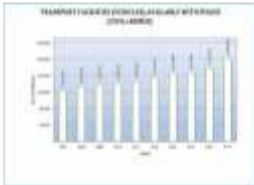

Vehicles required to provide mobility to Police Forces have been divided into four categories i.e. heavy vehicles (buses/trucks, troop carriers etc.), medium vehicles, light vehicles (jeeps / cars etc.) and very light vehicles (three / two Wheelers). Heavy, medium & light vehicles cater to the requirements of Police Stations and field level supervisory police officers.

Apart from these vehicles, state police have also procured special purpose vehicles like mine proof, riot control vehicles, ambulances, mobile forensic vans, water tankers, Prison vans etc. depending on their specific needs. These vehicles have been covered under the 'other category'.

The availability of vehicles from 2007 to 2016 by States/UTs is given below which shows a significant improvement in police mobility during this period.

The number of Police Districts affected by Extremists/Terrorists during the last nine years **2008 to 2016** has shown mixed trend. Increasing trend has been witnessed in 2007, 2008 and 2010. There is a slight

decrease in 2009. During 2010 to 2014 decreasing trend is visible but it increased slightly in 2015 again. The increasing trend in 2016 to 181 Police Districts is due to the fact that in Manipur 6 new Police Districts are added and all have been reported to be affected by Extremists/Terrorists.

State/UT wise data on:

- Types of Agitations
- Number of Agitations

This chapter gives State/UT wise information on number of agitations in the country.

Agitation

Agitations are collective expression of dissatisfaction with the state authorities and others on a variety of issues like education, essential services, transport facilities, wages etc.

In a democratic system expression of protest by different groups/ sub groups of public is a common feature. Police personnel of both the States and CAPFs need to consciously strive for upgrading their professional and behavioral skills in order to manage crowds agitated over any perceived, real or imaginary, cause of injustice / dissatisfaction against the authorities or some other sections of the society without use of force as far as possible.

State/UT wise details of agitations and their numbers are given at **Table 11.1**

WOMEN IN POLICE

State/UT wise Data on:

- Women Police Stations and their locations.
- Actual Strength of Women Police (Civil and Armed) & percentage of Reservation by State Governments.
- Actual Strength of Women Police in Central Armed Police Forces (CAPFs) and percentage of Reservation of Women in CAPFs.
- Percentage of Women in Police.
- Actual Strength of Women in Traffic Police.

- Actual Strength of Women in Civil Police in Police Commissionerates.
- Actual Strength of Women in Armed Police in Police Commissionerates.

Availability of adequate women in police is essential to reduce the vulnerability of women becoming victims of crime. It is seen that the existing police population ratio is still very low which requires to be increased. After a person in distress approaches the police, a chain of events takes place in the form of medical examination of the victim, recording of his statement before the Magistrate, assigning the case to public prosecutor and appearance in the Court proceedings. Overall shortage of women police personnel is posing challenges in the form of increased crimes against women, thereby underlining the need to bring more women police to frontline duties.

It is essential that women are visible at the cutting edge level of public interface. There is a tendency to engage women police only in stations like security checks and other specialized duties relating to women, but unless they are assigned the main-stream duties in the police stations, there won't be adequate impact on the community.

Women Police Stations

There is a total of 613 Women Police stations in the country. An overwhelming majority of these i.e. about 33.11% are functioning in Tamil Nadu alone with a total of 203 followed by 71 (11.5%) in Uttar Pradesh and 40 (6.5%) each in West Bengal, Rajasthan and Bihar. Details are given at Table – 12.1.

However, there are 19 States/UTs with no separate Women Police Station.

Strength of Women Police

The total strength of women in police from 2012 to 2016 has shown an increasing trend which is evident from the graph given below.

At present the actual strength of women police is **1,40,184** at national level, showing an increase of **14.05%** over **1,22,912** in **2015**. At States/UT level the **maximum 26,208 (18.70%)** women police personnel are working in **Maharashtra** followed by **16,553 (11.81%)** in **Tamil Nadu** and **8,308 (5.93%)** in **Rajasthan**. As per the recommendation in the 8th report of the 'Committee on Empowerment of women', only **17 States/UTs** had **33%** and above reservation of women in Police. **9 States/UTs** had no reservation at all for women in police. Other States/UTs had **3% to 30%** reservation. Details are given at **Table – 12.2**.

Rank wise Actual Strength and Officers to Constabulary Ratio

It is popularly known as '**teeth to tail ratio**'. It is an important indicator of the relative strength between rank and officers of a force. It is also an important criterion while planning and managing for the correct composition of the Women Police Force. Officers include Police Officers of the rank of **Assistant Sub-Inspectors (ASI)** and above & constabulary ranks include **Head constables** and **Constables** only.

Items	ASI & Above	HC & Constables	Ratio
Women Police	14,892	1,25,292	1:8.4

Data on Actual Strength of Rank wise Women Police in Central Armed Police Forces (CAPFs) has also been compiled. Out of the total number of 24,335 women police, the highest 6,699 (27.5%) is in Central Reserve Police Force (CRPF) followed by 6,646 (27.3%) in Central Industrial Security Force (CISF) and 4,187 (17.21%) in Border Security Force (BSF). Details are given in Table 12.3(a).

Percentage of Reservation of women available in CAPFs is shown in Table – 12.3(b)

Percentage of Women Police in comparison to total Actual Strength of Police is 7.28% at all India level. State/UT wise details are given in Table 12.4 .
