Issue -1

First National Conference of Investigating Agencies, New Delhi

BPR&D organized the First National Conference Investigating Agencies on August 12-13, 2016 at Vigyan Bhawan, New Delhi. Shri Rajnath Singh, Hon'ble Union Home Minister Inaugurated the Conference. Shri U U Lalit, Hon'ble Justice of Supreme Court delivered the Valedictory address. More than 50 senior officers from Central and State investigating agencies participated in the conference .

IMPLEMENTATION OF DsGP/IsGP CONFERENCE -2015 RECOMMENDATIONS RELATED TO "SMART" POLICING

A meeting of the Nodal officers from various States/UTs, to discuss the recommendations of DsGP/IsGP Conference- 2015, regarding "SMART" Policing, was organised on May 24, 2016 at the Conference Hall of BPR&D in New Delhi. The meeting was chaired by Dr M. C. Borwankar DG BPR&D. The Nodal officers discussed the actionable points such as:

- ❖ Preparation of a proper Roadmap for implementation of the concept of "SMART" Police
- ❖ Fixing Parameters for grading the Police Stations
- ❖ Preparing Uniform Public Delivery Systems Services & Integrated Traffic Management Systems as part of 'Smart City' project (100 cities) related to "SMART" Policing

The Bureau intimated the delegates about circulation of the draft roadmap for implementation of concept of "SMART" Policing prepared by BPR&D, to all States/UTs for taking action and furnish feedback for making it more effective. Parameters for assessing the performance of Police Stations including guidelines have also been sent to MHA for issuing necessary direction to all concerned.

Discussion during meeting of the Nodal officers of the States/UTs on preparation of road map for implementation of 'SMART' policing concept on May 24, 2016 at BPR&D New Delhi

Preparation of Qualitative Requirements (Standards and Trial Directives)

Qualitative Requirements (Standards and Trial Directives) in respect to the items mentioned below have been prepared by this Bureau in association with all CAPFs and Technical Institutes like TBRL, CFSL, GFSL, DRDO, DMSRDE, IIT etc.

- ❖ Bullet Resistant Helmet
- ❖ Bullet Resistant Jacket (III+)
- ❖ Bullet Resistant Vest
- ❖ Bullet Resistant Morcha

Further detail on above QR may be obtained from Modernization Division of BPR&D.

SMART POLICEMEN - DEVELOPING, DESIGNING AND TRIAL OF HIGH PERFORMANCE UNIFORM ARTICLES AND ACCESSORIES

The final meeting of research project "SMART POLICEMEN -Developing, Designing and Trial of High Performance Uniform Articles and Accessories" was organised on June 30, 2016 at BSF HQ New Delhi. The meeting was attended by senior officers of CAPFs and Delhi Police. The Project Director of NDBI, Ahmedabad gave detailed presentation

and displayed the complete set of prototype uniform, including raincoat and winter jacket. After having threadbare deliberation, some modifications have been advised for final selection. The report with recommendations has also been sought from NDBI.

DISPOSAL OF BR MATERIALS OF BR JACKETS/VESTS

A meeting of representatives of CAPFs, to discuss the disposal of BR Materials, was organised on July 15, 2016 under the Chairmanship of IG (Mod.), BPR&D in New Delhi. Based on discussion, Bureau has requested Academia, Technical Institutes, organizations like TBRL, CFSL, GFSL etc., composite BR Material suppliers, manufactures & vendors of BR jackets to offer their comments/suggestions latest by August 16,2016 .

5th All India Police Housing Conference

BPR&D proposes to organise the 5th All India Police Housing Conference in November 2016 at Bhopal. The conference is expected to be attended by CMDs/MDs of all State Police Housing & Welfare Corporations

Uniform Application for Various Services in Terms of Service Delivery to The People in A Time-Bound Manner with Provision of Penalty for Defaulters

With respect to actionable point on “SMART” policing of DsGP/IsGP Conference-2015, uniform application for various services in terms of service delivery to the people in a time bound manner with provision of penalty to defaulters, Bureau has obtained the details pertaining to Citizens Centric Services related to policing from respective States/UTs, compiled and identified 45 different services for citizens to be delivered in time bound manner in order to enhance efficiency and effectiveness of policing. These shortlisted services are being circulated shortly to all concerned for offering their feedback and comments.

5th National Conference of Heads of Prisons

5th National Conference of Heads of Prisons of all States/UTs is proposed to be held in New Delhi in September, 2016.

A TEACHER EXTRAORDINARY by Abhay IPS

Gurcharan Singh is an unusual teacher. He is a faculty in Central Detective Training School, Chandigarh teaching mobile forensics, digital evidence and cyber crime. But he was not recruited as a trainer. In fact he was recruited as a stenographer. It was his love for teaching and computers that attracted him to training within a year of joining CDTS in 1996. He has continuously upgraded himself by acquiring new qualifications and attending many training courses.

What distinguishes Gurcharan from other teachers or trainers is his unusual devotion to trainees, training and application of technology for police investigation. Gurcharan shares his contact details with all his trainees with an invitation to disturb him anytime. His trainees have taken his offer seriously and disturb him often. He is a full time investigation advisor to scores of police investigators in north India and beyond.

Let me recount one old case which made him a legend among his trainees and other investigators. A kidnapping /abduction case was under investigation by one of his trainees in a neighbouring state. A girl studying in class twelve along with her four year old brother were abducted. Accused had switched off his mobile. So it was becoming difficult to trace him. Gurcharan advised concentrating on the IMEI number rather than mobile number. And it paid off. Soon it was revealed that accused was using the same handset with a different SIM card. Gursharan traced the location of accused and investigating officer moved towards the location. Gurcharan sitting in his office became backroom support for the investigator on the move. But accused was moving very fast. Plotting his location on the Google map Gursharan realised that accused was near a railway track. A few minutes of painstaking investigation, some common sense application and Gurcharan had cracked it. Gurcharan told the

investigator to move to Mathura railway station where the train (Uchahar Express) was reaching within half an hour. Girl and her brother were rescued from the train at Mathura railway station, accused arrested and a legend was born.

Now let me recount the most recent case. In May 2016 while teaching a course Gurcharan as usual volunteered his expertise. One of the trainees of the course immediately asked for his assistance in a man missing case of NCR region that the trainee was investigating and was unable to crack. A young engineer, recent pass out from IIT, working in a pvt company had gone missing in February. Investigation revealed that there was some parental pressure on him to marry. Kidnapping was ruled out. His mobile was switched off. His Facebook account was inactive. Field investigation did not yield any clues about his present whereabouts.

Gurcharan took up the challenge. This time it was the gmail account of the missing person that gave the way forward. Using Google cloud and the link to his new android phone Gursharan could trace his new mobile number and location in Bangalore. To cut the story short, he was located when visiting a pvt company to show documents in connection with job application.

Gurcharan's fan following is not restricted to his trainees. He is well known in all states from where trainees come to CDTS Chandigarh. Senior police officers of neighbouring states right up to police chiefs treat him with courtesy, affection and respect.

Gurcharan Singh was conferred with Indian Police Medal for Meritorious Service last year (less than .02 % of police personnel get it every year). His name figures in list of recipients of Home Ministers Medal for excellence in Training. But more than these medals what really keeps him going is a phone call from one of his trainees in a remote location asking Gursharan sir to help with the investigation of an undetected case.

SMS BROADCASTING FOR INCREASING THE RESPONSE FOR NOMINATION TO TRAINING COURSES -MAHARASHTRA POLICE EXPERIMENT

BPR&D received an Email on the experiment by Maharashtra Police to enhance the demand driven Nominations .

Nominations of officers for various training courses found to be poor. Many a times, the officers unwanted in the field or on the verge of retirement are sent for training courses. This discouraged the training institutes to organize quality training.

To encounter the problem phone numbers of 13428 officers (PSI and to DGP) were collected. Initially *WhatsApp* was used to send the messages to intimate about training courses. But *WhatsApp* has blocked this messaging service assuming it to be the commercial advertisement. Then The MOU was made with Executive-Director, C-DAC , Mumbai for using C-DAC Mobile Seva Push SMS facility for sending transactional SMSs, which incidentally is free.

Process:

- ❖ Intimation of various training courses were sent through sms to all the officers' eligible (based on rank) containing information about the title of course, place of training, schedule, last date for applying, email id of office for applying. The officer has the choice to express willingness through SMS/call/ email along with his name, place of posting and also Sevath number (every officer in Maharashtra is given this Unique no. by finance department for release of salary). In addition to this, the supervisory officer also has opportunity to send nominations.
- ❖ Once willingness is received, it is processed in Training Directorate (TD) based on his place of posting, nature of assignment, past training course attended, any issue of law and order etc. Once the nomination is done, it is followed till the officer reaches

the training centre by proactive two way communication from TD.

- ❖ Positive feedback, from officers attending the courses at CDTS, is also encouraging the other officers to use this method.

Advantages

- ❖ Instant intimation
- ❖ Sufficient weightage to the willingness of the officer to ensure effective learning.
- ❖ Drastically reduced the percentage of dropouts.
- ❖ Messages can be sent in local language also.

Insights

- ❖ Contrary to popular perception, it is observed that large number of officers want to get trained. For example, we received willingness from 63 officers for the course on Bank Fraud cases at CDTS Jaipur. For officers who could not be nominated for this course, we conducted the same course at the State Police Academy. This way we could conduct a demand driven course'
- ❖ Courses on Bank Fraud, Mobile Forensics, Cyber-Crime cases are very popular.

Welfare Activities

BPR&D provided official uniform (Blazer) to all staff from Welfare Grant.

DG, BPR&D distributing the blazers to the staff of BPR&D
