

Report of the Committee as per Hon'ble Supreme Court Order in M.A. No. 267 of 2017 in SLP (Crl) No. 657 of 2017, Dilawar Vs State of Haryana & Ors. regarding Speedy Completion of Investigation and Monitoring Mechanism by the Investigating Agencies

The Hon'ble Supreme Court vide its Order M.A. No. 267 of 2017 in SLP (Crl.) No. 657 of 2017 in the case of Dilawar Versus State of Harvana & Ors., directed Ministry of Home Affairs as under:-

"We direct the Ministry of Home Affairs to have interaction on the subject with all the Central and State Investigating agencies on or before May 31, 2018 either on video conferencing or in person. The points emerging from the interaction may be recorded and examined by an appropriate Committee which may be constituted for the purpose. The said Committee may give its report latest by June 30, 2018. We direct the MHA to place on record among other data, the figures of all pending investigations beyond one year and action plan to complete them in a proposed timeframe. With regard to State agencies also such information may be collected and furnished by the MHA."

2. Accordingly, a video conference meeting was held on 18.05.2018 under the Chairmanship of Special Secretary (BM), MHA in connection with the directions issued by the Hon'ble Supreme Court.

Representatives of the Central Bureau of Investigation (CBI) and the National Investigation Agency (NIA) participated in person and the

E 2017

representatives of 29 States/UTs participated through video conference.

Minutes of the video conference is attached at **Annexure-1**.

- 3. Further, pursuant to the directions of the Hon'ble Supreme Court, a Committee was constituted to examine the points emerging from the interaction in the video conference meeting held on 18.05.2018 vide MHA Office Memorandum No. 10/10/2018- Judl.Cell-I dated 30.05.2018 of Ministry of Home Affairs, Judicial Wing (copy enclosed) under the Chairmanship of DG,BPR&D.
- 4. The Committee held its 1st meeting on 7.6.2018 at BPR&D Hqrs, New Delhi. The Committee examined points emerged during the aforesaid video conference. During the meeting a necessity was felt to have views of FSL experts also as forensic evidence constitute an essential part of investigation process. The meeting with FSL Officials was organised on 15.06.2018 at BPR&D Hqrs, New Delhi. After examining the points of video conference received from States and various central investigating agencies, having detailed discussion among committee members and interaction with FSL experts, committee narrowed down upon a factors/limitations that were prima facie found responsible for pendency of the cases with investigating agencies as well as with FSLs after the consultation of various quarters, the Committee,

then, decided to have greater interaction with representatives of States/UTs/Central Investigating Agencies seeking some additional data in order to understand the aggregate incidents of various factors on the process and the pace of investigation.

- 5. The Committee held its meeting with the representatives of States/UTs/Central Agencies on 4th, 5th and 9th July, 2018. After discussions with the representatives of States/UTs/Central Investigating Agencies the committee held its in-house meeting on 11th July, 2018, 17th July and 18th July, 2018 wherein members had detailed discussion on the issues that emerged out of the data received as depicted vide various Annexures to this report.
- 6. The outcome of various deliberations and data inferences are now discussed in the following segments.
- 6.1 Committee tabulated the pendency of crime State-wise in descending order. Annexure-2 depicts the total number of cases pending for more than one year as on 01.05.2018. Five States namely Tamil Nadu, Bihar, Assam, Delhi and Maharashtra in aggregate account for nearly 54% of the total pending cases. In contrast States like Uttar Pradesh, Rajasthan, Gujarat, Chattisgarh and Haryana etc. have less than 1.2% of pendency. Hence, prima facie, there appears to be no substantive correlation between size of the State or the incidence of crime

frek

2017

on the pendency as such. Therefore, Committee tabulated the data as per reasons of pendency. However, it definitely indicates that some States do have better practices that may be shared for the benefit of all.

6.2 Annexure-3 depicts the State-wise reasons of pendency. Committee, based on video conferencing / discussions, enlisted 13 specific reasons of delay separately and sought the feedback. Other reasons were clubbed together under general head 'any other reasons'. Such a tabulation facilitated an insight into various reasons of delay. Accordingly, it is evident that highest delay is due to accused not known (19.58%), followed by those in which accused known but absconding (17.30%). Medical examination reports seem to be causing delay up to 4.89% of such cases, followed by delay due to forensic examinations to the tune of 4.25% in aggregate. Non-availability of witness constitutes about 2.77%, followed by documents from financial institutions/banks pending (2.43%) and stay of investigations by Courts to the tune of 1.97%. Respective States/UT/Central Investigation Agencies need to, therefore, fix up the problems through specific steps within their area of responsibility. However, in 43.24% of the cases the delay is due to other reasons. Such reasons range from lack of investigating officers, border () crossing on international boundaries, inaccessibility of terrains for long

(2)

spell of time in some States, disturbed atmosphere in the State to the intricacies of terror related cases. Some of these reasons suggest that with better supervision, operational planning and capacity building, the pendencies could be reduced to the best possible level.

Having broadly seen the causes of delay, the Committee tabulated 6.3 the timeline of disposal as informed by the respective States for the next one year vide Annexure-4. It is reflected from the analysis that total 3,05,894 cases would be disposed of in next one year. The period disposal is 74,219 (up to 31.07.2018), 66,654 (up to 30.09.2018), 75,655 (up to 31.12.2018) and 89,366 (up to 30.06.2019). This constitutes nearly 82.47% disposal by States/UTs/Central Investigating Agencies (except Tamil Nadu & Arunachal Pradesh who have expressed their inability to give any time line). The various States/UTs had stated during video conference that in many cases defining timelines may not be feasible. Going by the data as above, nearly 17.53% of pending cases tend to fall in this category. As per video conferencing / follow up discussions, such a pendency is attributable to factors like criminals crossing over international boundary in border States, cases against terror elements in disturbed areas, inaccessibility of terrains in some places for long spells, besides reasons like stay by Courts, delay in cyber-crime

evidence collection, detecting documentary trails and corresponding examination, seeking presence of witnesses from abroad etc.

Committee studied the pendency of cases crime head-wise vide 6.4 Annexure-5. In aggregate, the body offences (17.93%), followed by property offences (14.43%), economic offences (11.98%) and local & special laws (11.63%) constitute the bulk of cases i.e. nearly 56%. UAPA, IT and SC/ST cases in all constitute about 5.7% of the pendency. Accident cases in itself constitute 7.16% of the pending cases. Here, it is relevant to observe that capacity building in terms of technologically upgraded logistics, investigation kits, training of investigators etc. can play a major role, as stated by the States during the video conference. Some States have argued to reduce the level of IO, such as from Dy. SP to Inspector in UAPA and SC/ST Act cases and Inspector to ASI in IT Act cases. Some of the States have delegated power of investigation to the lower ranks such as Head Constable/Naik. To cite an example, Maharashtra has given powers to Naik Police Constable (rank between Head Constable & Constable) to investigate cases under Sections- 160, 279, 324, 337, 378 & 379 IPC and also under some local acts.

- workload per Investigating Officer calculated as on 01.05.2018. The same is depicted vide Annexure-6. It ranges from 3.8 in Rajasthan to 37.5 in Assam, 39.8 in Uttar Pradesh and 60 in Puducherry. The local expansion of force, filling up of vacancies, separation of law and order and Crime Police etc., besides capacity building are some of the crucial factors that are to some extent responsible towards a faster pace of disposal. Committee felt that complexities of investigation, as per the reasons analyzed so far, may differ from case to case as well as place to place. Hence, States need to conduct their own workload analysis and devise congruent strategies in this context.
- 6.6 Since forensic examination is an important component of investigation and cited by States as one of the reasons of delay, Committee studied the forensic examination capacity vide Annexure-7. In most of the places, in domains like Biology/DNA/Cyber Forensics, the annual intake of cases is much more than the disposal. This has resulted into cumulative backlog over a period of time. This implies that many cases will not get disposed off even within one year. Non-existence of conducive conditions for storage also tend to adversely affect the quality of the evidence in terms of its analysis by experts. Prime facie, it

indicates that FSLs need capacity building in cyber forensics and DNA finger printing as well as upgradation of technology in other areas, besides availability of adequate experts.

- 6.7 Committee also studied the monitoring mechanism of various States vide Annexure-8 and the existing SOP on timelines vide Annexure-9. The following good practices can be recommended to all States/UTs/Central Investigating Agencies for speedy investigation.
- (i) Timelines to complete the various kinds of investigations could be issued.

[Committee finds that the timelines as suggested by Andhra Pradesh Police seem to be systematically evolved. The same are recommended to be considered by respective States at their level. These guidelines are placed at **Annexure-10**]

- (ii) Permission of designated higher authority be required to keep the cases pending beyond the given timelines as issued vide (i) supra.
- (iii) Periodic monitoring mechanism be put in place:
 - (a) Quarterly review meetings at Range & Zonal level.
 - (b) Half yearly crime conferences by DG.
 - (c) Special review at sub-division level for under investigation cases pending for more than one year.

- (iv) Creation of special mechanism for execution of NBWs.
- (v) Monitoring mechanism in each district and Police Commissionerate to check the merit of charge sheets before its submission to courts.
- (vi) Key performance indicators to monitor and encourage Police performance. [Telangana Model – Annexure- 10A]

7. Recommendations:

Whereas it may not be feasible to recommend uniform solution keeping in view the State specific peculiarities, Committee is of the view that it is still possible to suggest certain ways and means for speedy completion of investigation that the States may suitably adopt:

- 7.1 'Optimal workload review' of Investigating Officers in the State could be done. In this context, revisiting effective bifurcation of law & order / crime investigation police, filling up of vacancies and other related aspects remain crucial.
- 7.2 Capacity building of Investigating Officers through modern investigating aids/forensic tools/cyber techniques, adopting well-designed training modules constitutes an important segment of the strategy.
- 7.3 FSLs need capacity building in cyber forensics and DNA finger printing besides upgradation of technology in existing domains.

hole diggs

Availability of adequate number of forensic experts could also facilitate the task. Similarly, States may review capacity of hospitals with respect to medico-legal examinations.

- 7.4 Use of information and communication technology for servicing of summons, examination of witnesses including subject experts as well as IOs, which could make processes faster and more efficient, need to be promoted.
- 7.5 Online integration of Police Units, forensic labs, hospitals, courts and other agencies for submission of investigation related documents calls for due attention. In this context, there exists a need for synergising CCTNS & ICJS networks too.
- 7.6 Evolving feasible timelines to complete various kinds of investigations by respective States/UTs/Central Investigating Agencies deserves serious consideration. Model vide Annexure-10, para 6.7 (i) supra is suggested in this context. Similarly, periodic monitoring mechanisms at various levels need to be evolved where ever not existing. Para 6.7 (iii) is recommended in this context. Option of adopting Key Performance Indicators (KPI) is also available, as done by the State of Telangana. Annexure-10 A vide para 6.7(vi) is referred to in this regard.

Ausk of

- 7.7 Some other valuable suggestions were also given during video conference/discussions which could also be considered at appropriate level:-
- (i) Creation of Investigation fund as done by states of Andhra Pradesh, Karnataka, Maharashtra, Telangana etc. The concerned State Governments could earmark the fund for the purpose and place it at the disposal of SHOs for meeting investigation expenses. Rates are, however, contingent upon the categorisation of Police Stations by the States on the basis of the local requirements.
- (ii) Need based inclusion of various experts in investigation processes such as cyber experts, financial and legal experts etc., along with well-defined procedures that now seem to be the need of the hour.
- (iii) Changes in the level of Investigators, as some of the States have argued, by reducing their level, such as from Dy. SP to Inspector in UAPA and SC/ST Act cases and Inspector to ASI in IT Act cases could be initiated.
- (iv) Protocol for 'stay by courts' is another arena for consideration at appropriate forum.

fisk

1200

The Committee has, given the limited time period, made best efforts in not only collecting considerable amount of pan India data through well designed formats but also dedicated maximum possible time to study the relevant material available before it and has suggested some basic steps which could be immediately undertaken by States to accelerate the pace of investigation and also bring in desired changes to make a difference.

F.No. 10/10/2018- Judl. Cell-I

Subject:- Minutes of the meeting, held through video conference, on 18.05.2018 under the Chairmanship of Special Secretary (BM) regarding the matter of speedy completion of investigations and monitoring mechanism by the Investigating Agencies.

A video conference meeting was held on 18.05.2018 under the Chairmanship of Special Secretary (BM) in connection with the directions issued by the Hon'ble Supreme Court in MA No. 267 of 2017 in SLP(Crl) No. 657 of 2017, Dilawar vs State of Haryana & Ors for speedy completion of investigations and for setting up of an inhouse monitoring mechanism by the Investigating Agencies. Representatives of the Central Bureau of Investigation (CBI) and the National Investigation Agency (NIA) participated in person and the representatives of 29 States/UTs participated through video conference.

- 2. Special Secretary (BM) welcomed the Officers of CBI, NIA and Investigative Agencies of States/ UTs. He explained the background and impressed upon them the need for speedy completion of investigations and for setting up requisite monitoring mechanism by the Investigating Agencies. He then invited the officers to share their views on the matter.
- The representatives of the States/UTs expressed views as under:
 - i) Andhra Pradesh:
 - There are around 22000 cases in which investigation is pending for over a year.
 - Bulk of crimes are simple crimes (eg. sections 337, 338, 498, 304, 420 of IPC) and time limits can be prescribed.
 - In serious crimes like drug smuggling, murder, economic offences, property cases time lines cannot be fixed.
 - I.O are transferred and new I.Os take time to grasp the cases.
 - Level of I.O can be amended by the States if the matter is in concurrent list.

ii) Jharkhand:

- In house monitoring system is in place.
- Large number of vacancies remain unfilled. Acute shortage of I.Os
- The State has the problem of Left wing extremism and most officers are assigned to security and law and order duties. Hence fewer officers are available for investigative purposes.
- Investigation depends on forensic infrastructure available in the State.
- Sanctions for prosecuting from various agencies also takes long.
- Connectivity of the courts through video conference as many witnesses have to travel far to the courts.

- Over 15000 cases pending over one year (annual reporting is around 5000 cases).
- · They will produce an action plan and reduce pendency.

iii) Arunachal Pradesh:

- Around 700 cases are pending over one year. They suggested that a cut off date for deciding the one-year period may be specified.
- Section 468 already lays down the period of limitation for the Court to take cognizance of an offence.
- No time line can be fixed as circumstances of the cases are not in control
 of police as availability of forensic reports, medical reports takes long and
 are beyond their control.

iv) Haryana:

- The instant case pertains to Haryana. Law is silent on whether the time limit of 6 months is applicable for reinvestigation by the CBI after case was handed over to them.
- The courts grants stays on arrests and filing of charge sheets.
- Time limit cannot be fixed as murder cases, fraud cases take longer time to investigate. Complainants also want extended investigations. So it is impossible to close investigations.
- 1.6% of crime reported yearly remain pending for completion of investigation.

v) Chhattisgarh:

- Section 468 of CrPC already lays down the period of limitation for the courts to take cognizance of an offence. However the section does not lay down time limit for serious offences.
- Time limit may not be possible when accused is unknown. If the accused cannot be produced then Challans and charge sheets are not accepted by Courts.
- Internet /cyber crimes are difficult and not possible to adhere to time limits.

vi) Rajasthan:

- To prescribe time limit for investigation, time limit have to be prescribed for FSL reports, medical reports, etc.
- State does not have sufficient manpower as well as financial resources
- Stays were given by the Courts in 584 cases which leads to delays.
- Petty crimes can be investigated by the HC /Constables.
- · Video conference may be done to speed up criminal justice system.
- Online filing of charge sheets should be taken cognizance by the Courts. The existing Integrated Criminal Justice System (ICJS) should allow this facility.

 Many cases have inter-state / international dimensions and hence no time limit can be adhered to in such cases.

vii) Kerala:

- Courts are staying investigations for which protocols need to be adopted.
- Some new statute like Information Technology Act have specified the level of I.Os at Inspector level. Kerala had high number of IT offences. There is need for the level of IO to be brought down to SI.
- The provisions in UAPA allowing police custody (overriding the judgement in Kulkarni vs CBI) should be allowed for serious offences like rape, homicide, dacoity, etc.
- Most new statute prescribes timelines. Hence, chapter 12 of CrPC needs to be brought in line with such laws. A reference may be made to the Law Commission for examining the matter.
- There is not enough Cyber experts and Forensic labs. 7 lakhs FIRs are filed in a year. FSLs should be established in every district. Support has to be provided by the modernization scheme of Police by MHA.

viii) Bihar:

- In-house arrangement for monitoring and oversight has been provided in the Bihar Police Manual. As per Rule 173of Bihar Police Manual there are 3 categories of cases and timeline requiring oversight of various levels of officers has been prescribed.
- Increase in number of IOs will address the pendency of number of cases.

ix) J&K:

- Around 9000 cases are pending for over a year.
- 25-30% of these cases come under petty offences.
- 25-30% of cases are such that independent investigation cannot be carried out and delayed due to non-submission of revenue, medical and forensic reports. Time lines should be prescribed for these agencies, as presently there are no timelines for them.
- 20-25% of the cases are blind case of hit and run, accused are unknown person. Large number of cases of elopement also remain alive.
- Cases are also stayed by the Courts.
- Sanction of DM and DC level ought to be sufficient.
- Shortage of IOs, forensic labs and resources.
- Unique problem of the State -Around 3000 cases no timelines can be set as the accused are believed to have crossed over the border.

x) Madhya Pradesh

• FIR in 269892 cases were filed during last year out of which 6212 cases of the cases are pending (2.3%.).

- There is a large number of vacancies in the police force. There is 1538 vacancies at IO level.
- Separate cadre needs to be made for Investigation and Law& Order.
- In economic offences obtaining the documents take longer time.
- Blind cases, elopement cases, hit & run, robberies, interstate cases and procedural delays by courts leads to pendency of cases.
- Strong supervisory mechanism at various levels can be set up.

xi) Punjab:

- Board of Investigation exists since 2015 in Punjab however it should be made functional and given autonomy.
- Time line should be given to all agencies involved in investigation.
- Although no outer limits can be fixed, 60-70% are simple crimes which can be disposed of timely.
- Courts should give a direction for separation of duties of investigation from law and order.

xii) Karnataka:

- Around 85000 cases are pending for more than a year.
- No time limit can be fixed for accused -known but not traceable, and accused unknown.

xiii) Uttar Pradesh:

- The courts have the power grant bail in cases beyond exceeding the time limits.
- Section 468 of CrPC should be the guiding principle.
- Matter may be referred to Law Commission for examining timelines for heinous cases.

xiv) Himachal Pradesh:

- 431 case are pending for more than a year.
- Of these 18% are held up due to want of forensic / medical reports.
- Acute shortage of IOs and Prosecuting Officers.
- Refer to Delhi High Court order of 2003 where production of accused was not necessary for filing of charge sheet. This needs to be made applicable to other States also.

xv) Maharashtra:

- 2% of cases are pending for over a year.
- 70% of inmates are under trials who need not be held in prison unjustifiably.

- The courts are only empowered to give bail.
- Excellent monitoring and oversight mechanism exists.
- They have dedicated teams for investigation, who are not used for law and order duty.

xvi) West Bengal:

- Sufficient provisions exists for bail for unjustified incarceration.
- Staggered time lines can be set for different levels of cases.
- Time lines have to be set for ancillary agencies like medical, FSLs and sanctioning authority.

xvii) Assam:

- · Have endorsed all the points
- Would send detailed report in writing

xviii) Telangana:

- Various acts like POCSO, SC/ST Act, Arms Act, and also provisions of CrPC for rape cases have laid down time limits.
- Simple cases under sections 324, 325, 498A, 304 of IPC, and if accused is known, it would be possible to dispose of these cases timely.
- Economic offences cases are difficult to process with in a time line due to lack of documents.

xix) Tamil Nadu:

- Time limit needs for other agencies involved such as medical, revenue and forensic labs.
- Matter needs to be referred to the Law Commission.

xx) Odisha:

- Around 25000 cases are pending for more than a year.
- Endorsed the view that timeline can be fixed for simple cases.
- Cooperation of other agencies is needed for speedy investigation.

xxi) Andaman and Nicobar:

 Beside endorsing the general view, it was suggested that the topographical and weather condition limitations impact sending teams to the mainland, needs to be factored in while fixing time limits for investigation.

xxii) Goa:

- One size fits all approach cannot be adopted.
- Facts and circumstance vary from case to case and simple cases often become complicated.
- Investigations need coordinated approach with other agencies.

Goa has a high number of cases under NDPS Act but CFSLs take long time as they do not have reference material with them leading to delays.

xxiii) Uttarakhand:

- 225 cases are pending for over a year.
- 50% of above cases are fraud (420) cases.
- Timelines can be fixed for simple cases.
- Mechanism /SOP like in Bihar, can be adopted for investigation.
- DGP conducts video conferences with SPs regularly to bring down pendency.
- No time lines can be fixed for some heinous cases. Section 468 of CrPC could be the guiding principle.

xxiv) Mizoram:

- 35 cases are pending for over a year (serious -11, non serious 24)
- Reasons for delay are due to non receipt of reports from medical, FSL, inter-State agencies, etc.
- Information technology cases -law should be amended to allow investigation by lower rank officers.
- They have effective supervision and monitoring of investigations. 92.9
 conviction rate in 2014.
- 80-90 % conviction rate as on date.
- 20% shortage of manpower and equipment.

xxv) Manipur:

- 23,138 cases pending for over a year.
- Lots of cases under UAPA which can only be investigated by a gazetted officer. IO level needs to be lowered to Inspector rank.
- Being a border State, large number of officers are on law and order duty.
- Difficult terrain and climatic conditions hamper investigative work.
- High number of cases pending for want of FSL reports as there is no FSL in the State and they have to depend on FSL in Guwahati/ Kolkata.
- Special investigative teams under Additional SP are meeting regularly.

xxvi) Meghalaya:

- Endorses the points of other States and will submit detailed report in writing.
- Topographical / militancy / lack of FSL were the main issues.

xxvii) Puducherry:

- 1500 cases pending over a year.
- 50% for want of medical certificate and 20% absconding accused.
- Other pending for lack of FSL, etc. reports
- Need for increase of manpower and FSLs.

xxviii) Gujarat:

- Endorsed the views of other States.
- Large number of cases involve stays granted by courts.

xxix) Tripura:

- 346 cases are pending for over a year out of 4200 cases registered.
- Large number of under trials whose plight needs to be considered. \
- The quality of investigation is of prime importance.
- They have internal monitoring mechanism.
- Post mortem and viscera reports from FSL take time.
- Lack of IOs.
- Medical reports for persons discharged from hospitals should come with a week.
- Promotion of police officers held up due to court cases.
- Physical presence of IOs at the time of trial should not be compulsory as they are often transferred. The facility of video conference should be given.

xxx) National Investigative Agency:

- One size fits all solution may not be possible across all cases.
- Terrorism, Left wing extremism, militancy all have different impact. A uniform timeline may not be possible.
- Some supervisory mechanism may be adopted.
- Time limits already laid down in section 167, 173, 468 of the CrPC and various other acts.
- List of cases pending for over a year can be added in the data on NCRB.
- In UAPA cases Inspectors level can be appointed IOs.

xxxi) CBI:

- They would submit their inputs in writing.
- The views of various States/ UTs are summarized as under:-

- The procedure for timelines is already laid down under section 167, section 173 and section 468 of the CrPC. The Courts do not accept challans and charge sheets if these are not adhered to.
- The process of investigation cannot be seen in isolation. Investigation
 depends on various other non-police agencies/ inputs like medical reports,
 forensic reports and reports of revenue departments, etc. These reports are not
 received timely. The delay in the procurement of these reports is beyond the
 control of the investigation agencies.
- If a time line is fixed for investigation then such time line should also be made applicable to other agencies like the medical department, forensic labs, revenue departments, etc. that are responsible for providing input for quality investigation.
- The investigation wing needs to be separated from duties of law and order. There is need for creation of a separate cadre of police for dedicated investigation.
- The level of Investigating Officer (I.O.) needs to be reviewed for several acts. For example, in the UAP Act, the IO is a DSP level officers, but in most States there may not be sufficient DSP level officers, hence Inspectors should be empowered to investigate the matter. Similarly, Head Constables / Constables with at least 5 years' experience should be empowered to investigate simple crimes. Educated persons are now available even in constable ranks. In IT Act, 2000 also the level of I.O be brought down from Inspector to Sub-Inspector.
- There is a shortage of Cyber experts and Forensic experts.
- The number of number Forensic and Science Laboratories (FSLs) is insufficient and the Courts ask for modern scientific evidence like DNA tests, etc.
- Interagency, interstate or international cases, cases of economic offences, cybercrimes, cases where accused are unknown or absconding will take longer time to investigate and timeline may not be possible.
- Sanctions required from various agencies should be made available a lower level.
- The date of Hon'ble Supreme Court's Order i.e 01.05.2018 was taken as the cutoff date for the one year period.
- 5. The Chairman thanked the participating States and the CBI/NIA, and requested them to submit their views in writing by 23.05.2018, along with the data on cases pending for investigation beyond one year, as on 01.05.2018 and action plan to complete investigation to enable MHA to inform the Hon'ble Supreme Court by the given date i.e.30.06.2018.

Annexure: 2
Total Number of Cases Pending for more than one year
(As on 01.05.2018)

S. No 1.	States/UTs Tamil Nadu	Number of cases	Dames
2.	Bihar	62520	Percent 14.40
3.	Assam	60437	13.92

GOVERNMENT OF TELANGANA POLICE DEPARTMENT

Office of the Commissioner of Police, Hyderabad City.

No.31/CCRB/2016

Date: 21-01-2016

CIRCULAR MEMORANDUM

Sub:

Hyderabad City Police - Recognition and Reward of staff at every level with outstanding/very good performance on a monthly basis -Law & Order Police Stations - Division of Police Station work into (16) Functional Verticals - Key Performance Indicators (KPIs) for each Functional Vertical Identified - Process to Recognise and Reward PS Staff through comparison on a monthly basis at Division Level, Zonal Level & Commissionerate Level through Monitoring & Review - Communicated - Reg.

Ref:

This office Circular Memorandum No.26/CCRB/2016 in dtd.16.01.2016

All the officers and staff of Law & Order wings of Hyderabad City Police are hereby informed that the work of each Police Station including Women Police Station is classified into 16 functional verticals depending upon the nature of the work performed. There is a need to bring in professionalism at the cutting edge level by ensuring specialization of man power under each of these verticals through specialized trainings based on suitability and aptitude. There is an imperative need to recognise and reward the meritorious work turned out by the staff of all these verticals including Home Guard Officers on a monthly basis through constant reviews and monitoring vertical-wise at Division Level, Zonal Level and Commissionerate Level. This will help in keeping up the morale and motivation levels of the entire staff at all Police Stations on a regular basis for improving the productivity of each individual employee and the Police organisation at large.

The list of (16) Functional Verticals is shown in Annexure-I. The Key Performance Indicators (KPIs) of each functional vertical have been designed with a view to recognise the good work turned out by each and every employee at the PS level on a monthly basis through comparison at Division Level, Zonal Level and Commissionerate Level. The Key Performance Indicators (KPIs) for the (16) verticals are attached herewith.

All the SHOs are instructed to distribute the formats containing the Key Performance Indicators (KPIs) to all the staff of all the concerned Functional Verticals and

explain them about the need to capture the data accurately and showcase their own performance on a monthly basis. The monthly performance of the staff of each vertical shall be compared with the monthly performance of staff of the same vertical across all Police Stations of a Division, Zone and Commissionerate for recognising staff who turn out best performance among them and reward them suitably on a monthly basis.

All SHOs, Divisional ACsP, Zonal DCsP and CP Hyderabad (Jt.CP. Crimes on his behalf) shall review the comparative performance of the staff, vertical wise within Division, Zone and entire Commissionerate, identify the best (3) performers at Divisional Level, Zonal Level and Commissionerate Level and recognize and reward them accordingly on a monthly basis.

The details of Recognition and Rewards sanctioned at the Divisional Level, Zonal Level and Commissionerate Level on monthly basis shall be sent to the Inspector, CCRB by 15th of every month for record, who in turn shall put it up for the review by the undersigned by 18th of the month

Commissioner of Police Hyderabad City

To,
To All the Admin. SIs of L&O PSs including Women PSs.
